cattle for us this past year!*

Schmig Simmental Ranch

39TH ANNUAL PRODUCTION SALE

Thursday, March 10, 2022

1:00 p.m.

Sale will be held at the Ranch located
2 miles East, 2 miles North, 1 mile East, and
2/3 mile South of Stockholm, South Dakota

Sale Day Mobile Phone Numbers:

605-880-1893 Dennis or
605-520-5120 Dan

Home Phone: 605-676-2320 Dennis
or 605-886-8877 Dan

Auctioneer: JIM THORPE

Complimentary lunch from
11:30 a.m. to 1:00 p.m.

Welcome to our 39th Annual Production Sale. Thyen Farms will again be a guest consignor.

On February 8th we clipped, weighed, measured scrotal circumference, and gave the first foot rot vaccinations. The scrotal measurements listed are the actual numbers.

We worked and weighed our calves the 24th of September but didn't get them weaned until the 19th of October due to wet yard conditions. The average daily gain days included the unweaned days.

The Simmental and Angus bulls have received the same standard vaccination program. We will give our Simmental bulls a foot rot booster and a magnet for preventative hardware when we do a fertility check in mid April.

We can keep our Simmental bulls free of charge until the 1st of May, then I will deliver them free of charge up to 300 miles. Registration papers will be transferred to the buyers.

We plan to do a DV Auction so if you are unable to attend the sale, you can watch and bid online. We will also take phone in bids. You can go to our webpage and watch a video of our bulls.

We welcome everyone to stop by the ranch anytime to view the bulls. We hope to see you at our sale and the lunch is always good.

Sincerely,

Dennis and Joanne Schmig

A QUICK REFERENCE TO AN EXPLANATION OF EPDs:

Expected Progeny Differences (EPDs) are the most accurate and effective tool available for comparing genetic levels. In using EPDs the differences between two sires EPDs represents the unit difference expected in the performance of the progeny. (Listed below are the units ASA EPDs are expressed in:)

Calving Ease (CE): Percent of unassisted births when used on heifers

Birth Weight (BW): Pounds of birth weight

Weaning Weight (WW): Pounds of weaning weight

Yearling Weight (YW): Pounds of yearling weight

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters

Maternal Milk (MM): Pounds of weaning weight due to milk

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth

Stayability (STAY): Percent of daughters remaining in the cow herd at six years of age

Docility Score (DOC): The higher the number, the better the score

Carcass Weight (CW): Pounds of carcass weight

Yield Grade (YG): Yield Grade Score

Yield grade is an indication of the yield of red meat within a carcass. It is calculated by using several factors including: 1) fat thickness; 2) kidney, pelvic and heart fat; 3) hot carcass weight; 4) rib-eye area. A (-) EPD is better.

Marbling (MRB): Marbling score

Indexes: The last two columns in the EPD section are fairly new to the Simmental Breed, by interesting, they are \$ indexes. Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's were \$ indexes blend EPDs and economics to estimate an animal's overall impact on your bottom line.

All Purpose Index (API): It's exactly what it says, all purpose, this index includes every trait that can be calculated, calving ease, pounds at weaning and yearling keeping replacements back, milking ability and stayability, then the calf crop. It took into consideration some being retained as replacements, then the rest being fed off and sold grade and yield.

Terminal Index (TI): This index is to be used if all calves are going to a feedlot. It evaluates a sire for use only on mature cows with all calves put on feed and some grade and yield. No other factors were figured in.

Using API and TI, first determine which index to use, if you're breeding heifers and keeping replacements, use API, if all calves are going to the feedlot and finished, then use TI.

*Where Friends are Welcome and
Strangers Leave as Friends*

Welcome to Thyen Farms

Welcome to our part of the catalog. It's Sale Time 2022, dozens of catalogs in the mail every day. A lot better outlook this year with better prices for cattle and crops.

Quality is important in whatever product you are promoting. To help your future we have used new sires in all three breeds. Allowing you to get some new blood lines in your herd.

The bulls are on a high roughage ration, keeping them developing to their genetic potential, without compromising their longevity. Having a more youthful group than a lot of other sales, we will again keep them until you need them. When you are ready we will deliver them up to 250 miles.

We will have DV Auction on sale day, with the bull video on the internet soon. As in the past we are giving a \$100 coupon to buyers who come out and walk through the bulls before sale day, and "TALK BULL" with us.

For more information call Dan at 605-520-5120 or Nathan at 605-881-0693.

Thank you,

Dan Thyen
